Vantage7 ADVANCE7 | windows & doors

windows and doors for outdoor living

SELECTA® SYSTEMS

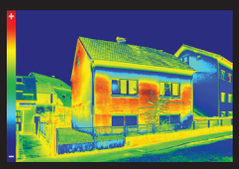

Vantage70 ADVANCE70

Holiday homes, log cabins, 'man-caves', pub sheds, garden rooms, studios and offices are becoming more popular and people have a close affinity and sense of pride with these properties. It can also be expensive to 'upgrade' to the latest models or versions and as an alternative a more economical way of upgrading is to refurb - this is where double glazed windows and doors come in!

Selecta extrude a patent approved quick click system for the Vantage 70 and ADVANCE 70 Systems, which has been specially designed for this market and suits wall thicknesses from 38mm to 100mm. Both systems have been intelligently designed to meet all requirements for improved thermal efficiency and security.

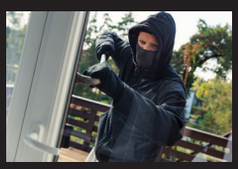

The ADVANCE 70 System benefits from large reinforcement chambers, where Selecta steel sections can be inserted for additional strength and rigidity when required, or increased thermal performance when combined with our RTR (Recycled Thermal Reinforcement) Bar.

THERMALLY EFFICIENT

Multi-chambered system for greater thermal efficiency

HIGH SECURITY

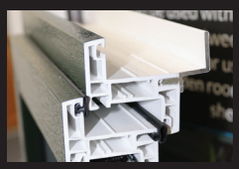

Compatible with all of our existing high security locking systems and hardware

EXCELLENT PERFORMANCE

Recycled Thermal Reinforcement (RTR Bar) for increased thermal performance or steel reinforcement for added structural strength

INNOVATIVE DESIGN

Quick click system for wall thicknesses between 38mm - 100mm.

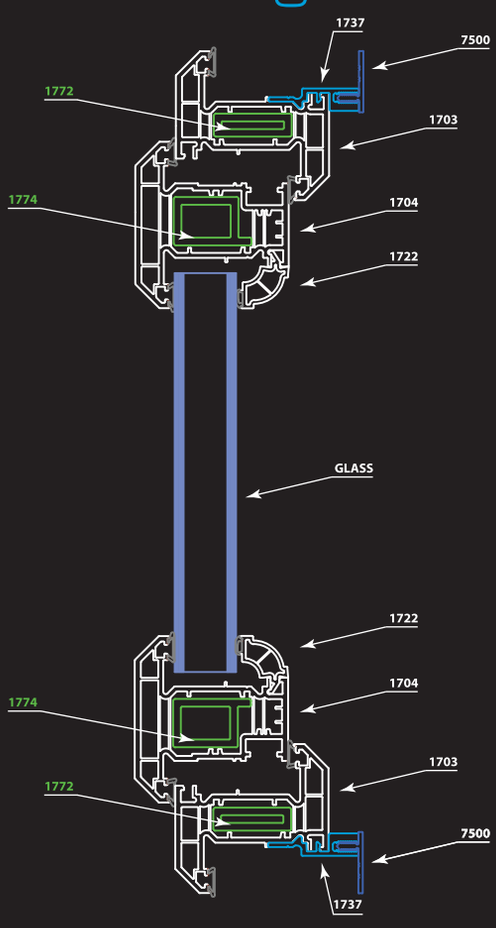

PURE ELEGANCE

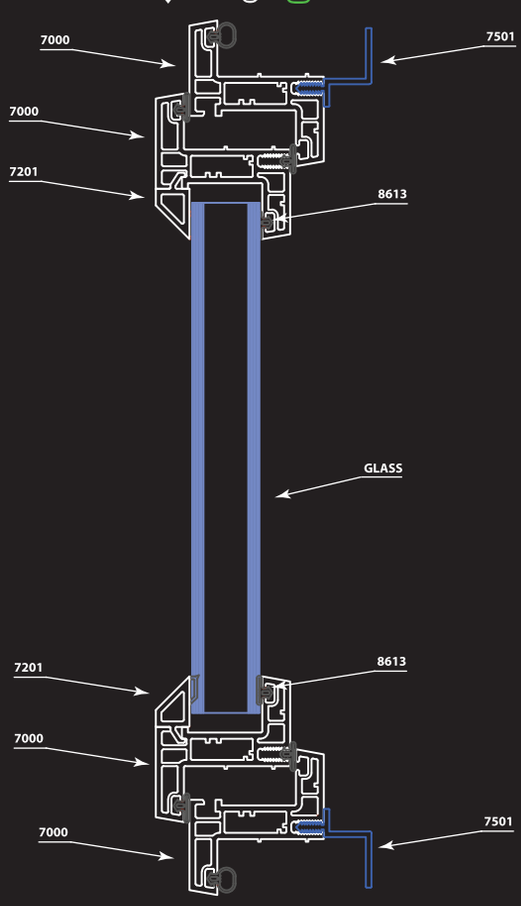

Adding a beautiful finish to your outdoor living project

Vantage70

THE PERFECT WINDOW & DOOR SOLUTION FOR OUTDOOR LIVING

Windows & Doors

A truly versatile window and door solution

- Patent approved quick click system for wall thicknesses between 38mm and 100mm
- Internal corner mouldings to provide an elegant finish
- 17 colour options & 34 colour ways
- Multi-chambered system for greater thermal efficiency
- RTR Bar (Recycled Thermal Reinforcement) for increased thermal performance
- Single leg bead for easy installation

Energy Efficiency

The thermal performance of the multi-chambered ADVANCE 70 Window and Door Systems ensures that A+ energy ratings can be achieved. Potential U Value examples below:

U 1.2 W/(m²K) **6 / 16 / 6** Pilkington Optifloat / Argon / Optitherm S1+ / Thermobar / RTR Bar Reinforcement

U 1.2 W/(m²K) **6 / 16 / 6.6** Pilkington Optitherm S1+ / Argon / Optilam S1+ / Thermobar / RTR Bar Reinforcement

Weather Performance

The Vantage 70 and ADVANCE 70 System are at the cutting edge of modern design and technology to ensure excellent weather resistant performance.

These innovations in modern PVCu design not only protects the property from inclement weather conditions, they also increase the lifespan of windows and doors.

Weather Test Results

	Vantage 70 7000 System
Air Permeability	600 Pa
Water Permeability	600 Pa
Wind Resistance	2400 Pa

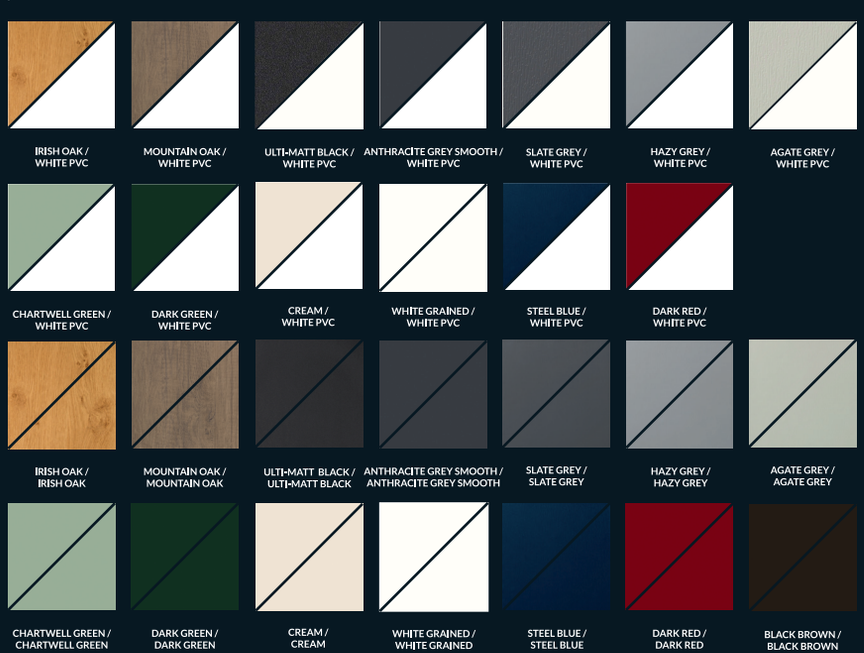

Colour Options

An attractive range of 17 foiled colours and woodgrain effects are available for the Vantage 70 and ADVANCE 70 System
